 SUBJ: Excess Sales Tax Committee Recommendations
 DATE: March 13, 2024

Background:

The Excess Sales Tax Committee has reviewed and provided recommendations for the use of Excess Sales Tax funds. They heard presentations from each of the requesting parties and also considered how the projects were ranked by the 410 respondents to the public survey. Those recommendations are as follows:

Proposed Project	Proposed	Recommended
Gordy Park Pavilion	\$ 300,000	\$ 300,000
Downtown Intersection Improvements	\$ 285,000	\$ 285,000

2. Excess Sales Tax Committee Meeting Minutes 012424

Policy Issue:

The City Commission must consider if these recommendations are in the best interest of the City and if they are the best use of the available funds.

Fiscal Impact:

The total amount available to the Excess Sales Tax Committee was \$1,550,932, or \$925,932 for

2022 and \$625,000 for 2023. The amount for 2022 includes funds from previous projects that did not use all available funds.

Trade-offs:

Approving the Excess Sales Tax Committee's recommendation will provide an opportunity to complete those projects, but will ensure that the other projects requested are not completed in the near future.

Staff Recommendation:

Accept the recommendations of the Excess Sales Tax Committee.

Commission Action:

The City Commission has the following available options:

1. Accept the recommendations of the committee as presented.
2. Request revisions to the recommendation, providing funds for other projects as they wish.
3. Deny the recommendations and request the Committee revisit their recommendations.

Sales Tax Committee 2023/2024

Ordinance G-1281

- The City of El Dorado has voted in favor of a 1% sales tax since 1990.
- The current sales tax began October 1, 2019, and will end September 30, 2024.
- The ordinance allocated funds as follows:
 - \$1,650,000 for property tax reduction;
 - \$600,000 for street rehabilitation; and
 - \$100,000 for economic development.
 - Funds in excess of this balance are allocated as excess sales tax proceeds.

Excess Sales Tax

- Per Ordinance, Excess Sales Tax proceeds may be used to fund
 - Services and functions provided directly by the City;
 - Capital Expenditures that directly support City operations; or
 - Projects that are included in the current Capital Improvement Plan.
- Definitions
 - *Capital Expenditure* – an addition or structure that enhances the value of a property, a replacement or upgrade that extends the life of an asset or equipment acquisition.
 - *Capital Improvement Plan* – the current Capital Improvement Plan of the City of El Dorado, Kansas, as adopted by the City Commission.

How Does Excess Sales Tax Work?

Year 1

- Sales tax is collected by local businesses each month.
- Local businesses remit the taxes to the State of Kansas the following month.
- The next month the State of Kansas pays the City their portion of the sales tax.

Year 2

- The Finance Director subtracts the property tax reduction amount (\$1,650,000), street rehabilitation (\$600,000), and economic development (\$100,000). The remainder is then transferred to the excess sales tax fund.
- Department submit requests for excess sales tax funds.
- These are presented to the Excess Sales Tax Committee who considers what projects should be submitted to the City Commission.
- The City Commission reviews and accepts or requests changes to the recommendation.

Year 3

- The projects approved in the previous year are initiated.

There were 410 survey responses.

Written Survey Responses

- Rental of the Civic Center needs to be made more affordable.
- SCBA's should be a priority and not dependent on excess sales tax.
- This survey is a huge disappointment. Excess sales tax needs to be considered for many street areas and sidewalks within housing areas and not just downtown. The northbound street at 6th and Atchison is horrendous, and that's just one of many prime examples. It takes a lot for me to be fueled with upset. And with that in mind, I am honestly infuriated to see the options within this survey. There are ZERO options addressing the task to repair/upgrade areas outside of downtown that people drive their hard-earned vehicles on - vehicles subject to property taxes that we also pay with hard-earned dollars. It's an absolute shame when we have to detour around streets because our vehicles just can't handle them - and the property we drive and pay for shouldn't have to handle the streets so roughly when these sales tax dollars are going to be readily available. I never would have imagined that in my hometown of 30 years, some streets could become so poor and that I would have to avoid them to preserve the well-being of my vehicles. There needs to be a genuine evaluation of streets and sidewalks in the City and how this "excessive" \$1 million can contribute to genuine needs before wants in the city firstly, with subsequent planning driven into genuine action FOR THE PEOPLE OF EL DORADO already living here. I'm sure the work does not come cheap - I get that. But with my selection of priorities in this survey, we still have an approx. \$600k to allocate to places of extreme need.
- This isn't the big city. There are cops at every corner. More low-income housing would help the crime rate and homelessness.

Note: These minutes are not exact due to a malfunction in the video process, we have provided information to the best of our recollection.

Assistant City Manager Tabitha Sharp began the meeting with a presentation. She discussed the current ordinance, prior allocations, and amount available for allocation by this committee. She reminded the committee that the current ordinance does not expire until October 1, 2024, so this group will still be operating under those rules.

Assistant City Manager Sharp asked each of the Directors to present their projects.

Fire Chief Joe Haag gave an overview of the SCBA's. He stated that this purchase would provide one for each seat on each truck. He stated that the useful life on the packs is about 15 years.

Assistant City Manager Sharp stated that staff have put a replacement program in place that allows for the purchase of at least two packs each year moving forward.

Public Works Director Brad Meyer provided information on his items.

- Traffic Signal Upgrades – He stated that these will replace aging parts and upgrade them with better timers and sensors.
- Traffic Signal Battery Backups – He stated that these will be installed on the current boxes and would keep signals operating during power outages which would prevent traffic disruptions.
- Small Pipe Inspection Camera – He stated that the purchase of this camera system could help identify issues in small pipes such as the spray parks, traffic signal conduits, duct work, etc. He stated that this will allow for quicker repair and minimize unnecessary destruction of the infrastructure.

- IT Infrastructure Improvements – These devices are placed on the water towers and other places throughout the city and allow us to transmit signal to buildings that would otherwise have to get their internet separately from the other city buildings due to their location. The devices are due for replacement because of age.

City Engineer Scott Rickard provided information on the downtown intersection improvements. He stated that the proposed bulb outs would serve to slow traffic and provide a safer crossing for pedestrians at those intersections. He stated that the signal at Main and 1st must be removed because Evergy will no longer be providing power there. He stated that the parking spaces on the north side of 1st will be changed to diagonal to provide a few more spaces for downtown businesses.

City Engineer Rickard and Parks and Recreation Director Kevin Wishart discussed the Walnut River Sports Complex Parking Lot. They stated that on soccer, flag football and baseball/softball game days, that parking lot is difficult to traverse, and the pavement has deteriorated. The proposed changes would resurface the lots and provide a sidewalk from the eastern lot to the soccer and flag football fields for safer pedestrian travel.

Parks and Recreation Director Wishart reviewed his other projects as follows:

- Downtown Streetscape Project – He stated that the flowerpots along the sidewalks in the downtown area have deteriorated significantly. Staff would like to replace them, providing a better downtown experience. He stated that they are considering self-watering pots or adding the pots to the current watering rounds for the baskets. The existing irrigation system has significant issues and needs to be removed or replaced.
- Pool Slide – He stated that the large slide, which was accessible to smaller children and less confident swimmers, had to be removed due to plumbing and electrical issues. He said that in 2022, the sales tax committee had granted \$125,000 for a new slide, but upon further inspection, the plumbing and electrical upgrades required would push the project closer to \$300,000.
- West Park – He stated that the area west of Haverhill is currently underserved by the city park system because there is not a park within walkable distance for children. This would provide playground equipment, a shelter and parking in an area designated as parkland off of 6th and Bluestem Rd.

Public Utilities Director Jason Patty gave the committee information on the Blue Robotics Underwater Robot. He stated that this item would be used for inspection in our water tanks and towers. He stated that currently we must hire a company to bring a camera in, this would eliminate that expense, \$2,000 per visit. Currently we bring them in every 3 to 5 years, and staff would like to have more regular inspections.

Lieutenant Travis Pierce presented information on the proposal for a drone. He stated that a drone would be useful for search and rescue, for crime scene documentation, mapping, infrastructure inspections, and photos of events.

Assistant City Manager Sharp reviewed the remaining projects:

- Housing Incentive Plan – This plan would provide incentives for builders or homeowners to upgrade or build new housing stock in El Dorado. There are many incentives available through the State and other programs, but they are typically competitive and take more time than desired.
- Downtown Speaker System – The Chamber and Main Street originally proposed this project for a speaker system in the downtown area. It would play music during shopping hours, providing a more inviting atmosphere. It would also allow for emergency announcements when needed.
- El Dorado Mural Grant Match – The city has completed several projects over the last few years, but in an effort to continue providing art in public spaces and engaging the community, we would like to provide a matching funds program where other groups or businesses could sponsor a portion of mural projects and the city would match the funds.
- Banner Program – We have the beginning of a banner program downtown, e.g. the Veterans and college banners, but would like to expand and unify that program with the addition of banners for other seasons and events.
- Gordy Park Pavilion – The Parks and Recreation Master Plan proposed a pavilion at Gordy Park for small concerts and events. Experience El Dorado would pay a portion of the costs associated with the construction in exchange for being able to use it for smaller concerts and shows.
- Civic Center Upgrades – The Civic Center received its last significant upgrade in the late 80s or early 90s. While the paint and carpet have been replaced a few times, it is showing its age and needs a refresh. Staff would also purchase new tables and chairs as the existing ones are also showing significant wear and tear.

Assistant City Manager Sharp stated that the committee should consider the projects and discuss any other projects they would like to include.

Debi LaForge stated that she received a suggestion from a citizen. She stated that they requested that funds be provided for the homeless shelter and for a low-income home repair program.

Assistant City Manager Sharp stated that the low-income repair program might be a possibility, but that under the current ordinance, the funds for the homeless shelter would not be allowed. She stated that the Commission can change the ordinance, so it could be included in the recommendation from the committee.

The committee agreed to meet again on February 7, 2024 at 5:30 p.m.

SUBJ: Refuse Rates
DATE: March 13, 2024

Background:

At the November 10th, 2021 City Commission work session, City Manager David Dillner stated that competition with other agencies and local businesses in the refuse division has not come out in our favor, and we are struggling to recruit new employees and retain current ones. He stated that staff are proposing two options, one to keep refuse and work on a phased approach to increasing wages and refuse rates. The second would be to contract out Refuse to a private company. Public Works Director Brad Meyer discussed the pros and cons of moving to a private service. The Commission asked staff to look at what it would take to keep the refuse division within the City services.

The proposed refuse rate increase was not brought to the Commission for consideration at a regular meeting when originally planned. The Refuse Fund has been able to carry the increased costs for the last two years, but is now in the position that the increase is necessary in order not to end the year with a negative fund balance.

After performing an analysis of the current status of the refuse fund, staff have projected revenue increases over the next few years as a means of responding to inflationary pressures leading to staffing issues and the increased cost of goods and services. In addition, these increases would serve as a means to provide sufficient funding to replace refuse trucks as laid out by the Equipment Replacement plan.

Attachments:

1. Refuse Rate Increase Projection Calculator_12.7.2021

Policy Issue:

Should the City adopt this residential and commercial rate increase in order to maintain adequate municipal refuse services?

Fiscal Impact:

Staff are proposing an increase to residential rates from \$15.75 to \$16.75 and commercial rates will increase by 20%. The proposed rate increase plan for the next five years is attached. It will allow the refuse fund to pay for required equipment and save for replacement of that equipment when the time comes.

Trade-offs:

Should the Commission agree to the refuse rate increases, it will allow the refuse department to continue providing the current level of services and to remain competitive in the job market. Should the rate increase not be approved, the department will have to consider how to cut costs which would in turn cut services or they would have to consider moving the city to a private service.

Staff Recommendation:

Approve the recommendation to increase refuse rates as presented.

Commission Action:

Accept and approve the recommendation as presented by staff.
Modify the recommendation presented by staff.

Deny approval of the proposal.
Request additional information from the City Manager.

TO: City Commission
FROM:
SUBJ: Street Cut Policy
DATE: March 13, 2024

Background:

The City of El Dorado regulates Public right-of-way excavations under Chapter 12.12 of the Municipal Code. This existing code regulates excavations, pavement cuts, and sidewalk removals within city streets, alleys, and public ways primarily by individuals doing repair or replacement work on private utility service lines; the most common occurrence would be a plumber replacing a private sewer service for a dwelling to the City Sanitary Sewer Main. Feedback from individuals doing this work and an evaluation of this ordinance by staff have revealed opportunities for improvement to align with the city's standards and provide better service to the permittee.

The proposed ordinance amends various sections of Chapter 12.12 about excavations in Right of Ways. Key differences include:

- Permit application process: Franchised utilities and Tradesmen must follow the permit application process outlined in the proposed revision, with Franchised Utilities not being responsible for permit fees but potentially billed for actual expenses if they don't meet the City's standards, and the City must redo the repair.
- Permit issuance and fees: The Public Works Department is responsible for issuing permits and determining fees based on applications set forth by a proposed resolution staff is working on. The City Commission will review this resolution at a later date along with various other fees. Fees are credited to the city's general fund. A certificate of insurance is required before commencing work.
- Reconstruction and repairs: Work must comply with city standards and specifications, allowing contractors to provide their own services if they meet city requirements. Contractors are responsible for backfilling and erosion control and may be required to pay for repairs if work doesn't meet standards. See attached standards
- Traffic control: Permittees must provide traffic control plans and devices as specified by the city.
- Utility locations and additions: Additional provisions are added for utility locations, including requirements for cleaning up debris and restoring the work site to pre-project condition.

These changes aim to streamline the permitting process, ensure compliance with city standards, and clarify responsibilities for permittees and contractors. Streamlining the process, enhancing accountability, and ensuring compliance with updated city standards are necessary. Franchised utilities and plumbers operating within city limits require a clear understanding of their obligations and responsibilities when conducting street cuts or excavations.

Attachments:

1. UTILITY CUTS Details 8x11
2. Street Cut App
3. Ord Chapter 12 -excavation

Policy Issue:

Should the City Commission make changes to the existing street cut ordinance?

Fiscal Impact:

There will be no significant fiscal impact to this item.

Trade-offs:

Adopting the revisions to this policy will allow for better management of street cuts, and maintaining the current ordinance would cause the existing issues to occur.

Staff Recommendation:

Staff recommends adopting the proposed ordinance amendments to update the street cut regulations in Chapter 12.12 of the Municipal Code.

Commission Action:

1. Maintain Current Ordinance: The city could retain the existing ordinance without amendments. However, this option does not address the identified issues and may lead to continued inefficiencies and ambiguities.
2. Make Minor Revisions: The city could opt for minor revisions to address specific concerns instead of a comprehensive update. However, this approach may not adequately address all identified shortcomings and may require further amendments.
3. Proceed with Proposed Ordinance Amendments: The recommended alternative is to proceed with the proposed amendments outlined in the draft ordinance. These changes aim to streamline the permitting process, enhance accountability, and ensure compliance with updated city standards.

ORDINANCE NO. _____

**AN ORDINANCE OF THE CITY OF EL DORADO, KANSAS, AMENDING
TITLE 12 CHAPTER 12.12 PERTAINING TO EXCAVATIONS OF THE EL
DORADO MUNICIPAL CODE**

NOW, THEREFORE, BE IT ORDAINED BY THE GOVERNING BODY OF THE CITY OF EL DORADO, KANSAS:

Section 1: Title 12 Streets, Sidewalks and Public Places, Section 12.12.010, is hereby amended to read as follows:

12.12.010 - Cutting pavements, curbs, or sidewalks—permit needed.

It is unlawful for any person, firm, or corporation to cut pavements, curbs, or sidewalks, remove the same, or make excavations in the streets, alleys, or public ways of the city for any purpose without first applying for and receiving a permit from the City of El Dorado (the City). Franchised utilities and applicants such as plumbers shall follow the permit application process outlined in section 12.12.020. Franchised utilities shall not be responsible for a permit fee; however, they will be billed by actual expense if an approved contractor is not used and/or the Public Works Department replaces the pavement, curb, or sidewalk. All pavement removal and replacement, including curb and gutter, and sidewalks, shall follow the standards and specifications of the City.

Section 2: Title 12 Streets, Sidewalks and Public Places, Section 12.12.020, is hereby amended to read as follows:

12.12.020 - Permit—How secured.

Any person, firm, or corporation desiring to obtain a permit for the purpose of Section 12.12.010 of this chapter shall make an application to the Public Works Department and shall describe the work to be done and the location thereof.

- A. The City shall grant a permit to such person, firm, or corporation and shall supply them with a copy of the specifications established for the work.
- B. The City shall determine the fees to be paid for such purposes upon the basis of the application.

- C. The fees shall be credited to the city's general fund to cover the direct cost associated with replacing the pavement, curbs, or sidewalks.
- D. The applicant shall submit a certificate of insurance for the work within the Right of Way prior to commencing work.

Section 3: Title 12 Streets, Sidewalks and Public Places, Section 12.12.030, is hereby amended to read as follows:

12.12.030 - Fees.

- A. The fees for the above purpose shall be in accordance with Section 1.15.010.
- B. All excavation work and replacements shall be done in accordance with the specifications of the City. Franchised utilities or applicants shall also prepare the trench or excavation to allow the Public Works Department or an approved contractor to perform the street, curb, and sidewalk replacements, as specified by the City.
- C. Where curbs are cut or removed, or cut and replaced, all such work shall be done at the expense of the person, company, or corporation having a permit for such purpose, the same to be done in accordance with the specifications of the City.
- D. The Permittee shall also provide Best Management Practices for erosion control during and after the work.

Section 4: Title 12 Streets, Sidewalks and Public Places, Section 12.12.040, is hereby amended to read as follows:

12.12.040 - Cutting pavement—How.

When the condition of the sidewalk or pavement, in the opinion of the City, requires it, a concrete saw shall cut the pavement, curb, or sidewalk. The city will make all necessary cuts needed for the permit; however, at times, the City may authorize a qualified contractor.

Section 5: Title 12 Streets, Sidewalks and Public Places, Section 12.12.050, is hereby amended to read as follows:

12.12.050 - Reconstruction of pavement or sidewalk.

- A. City employees shall do all such work under the direction of the Public Works Director or their designee.
- B. Contractors shall backfill, with suitable well-compacted material, all excavations in dirt, gravel, sealed earth, and sidewalk locations, per the City standards and specifications.
 - a. If the same is not done to the satisfaction of the Public Works Director or their designee, the city will make the repairs, and the contractors shall pay the cost.
 - b. Contractors shall also provide erosion protection as required.

- C. The City may allow the applicant to utilize their own contractor with no permit fee to replace the street, curb, and sidewalk, provided that the selected contractor complies with all city requirements and standards.
- D. The contractor performing the work must also provide their own traffic control as specified by the City and shall be required to provide an erosion protection plan for the project.

Section 6: Title 12 Streets, Sidewalks and Public Places, Section 12.12.060, is hereby amended to read as follows:

12.12.060 - Excavations—Traffic Control.

It is unlawful for any person to excavate any street, alley, sidewalk, or public way of the city without a permit.

- A. During any work, excavation sites, building materials, vehicles, stones, bricks, or other materials in or on any street, alley, sidewalk, or public way shall always be protected by barricades and traffic control devices.
- B. The City shall require a traffic control plan to be submitted by the permittee, and it shall be the permittee's responsibility to provide their own barricades and traffic control devices as specified by the City.

Section 7: Title 12 Streets, Sidewalks and Public Places, Section 12.12.065, is hereby added to read as follows:

12.12.065 - Utility Locations and Additions.

For services that require coring into roads or directional boring for utility locations, the applicant shall comply with all city requirements and standards, and permits shall be obtained as necessary.

- A. Broken pavement, earth, and debris removed by excavation shall be cleaned up and removed at the end of each day. All debris shall be removed entirely from the work site at the completion of the project, and the area restored to pre-project condition.
- B. If the same is not done to the satisfaction of the Public Works Director or their designee, the city will make the repairs, and the contractors shall pay the actual cost.

Section 8: This Ordinance shall take effect and be in full force from and after its publication once in the official city newspaper.

Section 9: In all other respects, Chapter 12.12 shall be and remain unchanged.

SUBJ: Food Truck Ordinance
DATE: March 13, 2024

Background:

Food trucks provide many benefits to our community. For example, they provide dining options that might not otherwise be available, they create additional sales tax opportunities, they provide opportunities for community engagement and tourism, and they encourage local entrepreneurship. Food trucks can also create conflict with brick and mortar establishments who pay property tax, they can create noise and other environmental concerns, and they can add to parking or traffic issues. The City has taken a primarily "hands-off" approach to food trucks in the past few years, but with the increasing popularity, we feel that it is necessary to regulate them to some extent. City staff want to encourage more opportunities for small businesses and variety in food selection, but also support our property tax base and ensure that safety concerns are addressed.

Attachments:

1. Food truck Ordinance

Policy Issue:

Should the City Commission regulate food trucks within the City of El Dorado?

Fiscal Impact:

There will not be a significant fiscal impact should the Commission adopt this ordinance, staff are already managing the trucks to an extent. We are requesting the Commission approve a fee for food trucks of \$50 per month or \$200 per year.

Trade-offs:

Regulating food trucks will allow the City to ensure safety and licensing requirements are met, but also, it may discourage some from coming to El Dorado because of the costs.

Staff Recommendation:

Approve the ordinance as presented.

Commission Action:

The Commission has the following options:

1. Approve the ordinance as presented.
2. Request that staff make changes to the ordinance.
3. Deny the ordinance and continue to allow trucks without regulation.

On March __, 2024, the City of El Dorado, Kansas adopted Ordinance No. G-____, an Ordinance Amending Title 5 of the City of El Dorado, Kansas Municipal Code relating to Business Licenses and Regulations, with certain omissions, changes, and additions; prescribing additional regulations; providing certain penalties and repealing prior ordinances. ORDINANCE NO.

AMENDMENT TO CHAPTER 5 OF THE CITY OF EL DORADO, KANSAS MUNICIPAL CODE PERTAINING TO BUSINESS LICENSES AND REGULATIONS.

BE IT ORDAINED, BY THE GOVERNING BODY OF THE CITY OF EL DORADO, KANSAS:

Section 1: Section 5.04.150 of the Municipal Code of the City of El Dorado, Kansas is hereby amended to read as follows:

Section 5.04.150 Application – Required

Before the city clerk shall issue any license required by ordinance, the clerk shall determine if the applicant therefor is qualified under the ordinances of the city to receive such license. Applications for any license authorized by ordinance shall be provided by the city clerk upon request.

Section 2: Section 5.04.170 of the Municipal Code of the City of El Dorado, Kansas is hereby amended to read as follows:

Section 5.04.170 Application – Investigation and issuance of license.

When an application is received for a license, an investigation shall be conducted as follows:

- A. Upon receipt of the above application, the city clerk shall refer the same to the appropriate city personnel, who shall cause an investigation of the facts stated therein to be made within not to exceed five days.
- B. If, as a result of the investigation, the application is found to be unsatisfactory or the facts stated therein to be untrue, the city clerk shall return the application to the applicant and provide a reason for denial.
- C. If, however, the investigation of such application discloses that the facts stated in the application are satisfactory and true, the city clerk shall, immediately upon payment of the license fee prescribed hereafter, issue a license to the

applicant to engage in the business described in the application. Such license shall show the name, the kind of goods to be sold or services rendered, the amount of fee paid, and the date of issuance and the length of time the license shall be operative.

Section 3: Section 5.08.060 of the City of El Dorado Municipal Code shall be added to read as follows:

Section 5.08.060 - Mobile Food Vendors.

Mobile food vendors may operate within the city under the following conditions.

- A. They shall have their State of Kansas food license and sales tax registration posted in a conspicuous area inside the truck.
- B. Mobile food vendors shall be allowed in the following zoning districts: C-1, C-2, I-1, and O-1.
- C. All vendors shall park on a hard surface, as defined in the Zoning and Subdivision Regulations, Article 7 – Off Street Parking and Loading Regulations.
 - a. Vendors should have written permission from all private property owners before utilizing said property.
- D. No sales shall be allowed from right-of-way unless:
 - a. They take place during a City of El Dorado approved event.
 - b. They take place within the following designated areas: 100 Block West Locust, 100 Block East 1st, or areas given individual approval by the City Manager.
- E. The food vendor shall park so that their customer service window is facing the curb, lawn or sidewalk.
 - a. No food service shall be provided on the driving lane side of the truck.
 - b. The line of customers should not hinder the flow of traffic on any street, the flow of bicycles within any bike lane or route, or the flow of pedestrians along any sidewalk.
 - c. No accessible route providing access to persons with disabilities may be blocked or reduced to less than five (5) feet in width.
- F. Signs must be attached to the unit and may not exceed the dimensions of the unit by one foot in any direction.
 - a. Signs must not have flashing lights or glare.
 - b. No direct light may be shined on adjacent property or cause a glare or distraction for vehicles, bicycles or pedestrians from a mobile food vendor.
- G. Sales locations must be 150 feet away from residential property and restaurants as measured from the structure, excluding properties zoned C-2 or designated above.
- H. Trash receptacles shall be provided by the mobile unit. Such receptacles must be attached to the unit or located within fifteen feet of the unit and cannot interfere with vehicle access, pedestrian movement, or handicap-accessible

routes to and around the unit. Immediately upon cessation of vending, the mobile food vendor shall return the site to its previous condition, including the removal of all litter, repair of any damage, of other evidence of vending.

I. Fees shall be charged in accordance with Section 1.15.010.

Section 4: In all other respects, Chapter 5 shall be and remain unchanged.

Section 5: REPEAL. All other ordinances or parts of other ordinances in conflict herewith are hereby repealed.

Section 6: EFFECTIVE DATE. This ordinance shall be in full force and effect from and after its publication once in the official city newspaper.

SUBJ: Fee Schedule
DATE: March 13, 2024

Background:

The City Staff are proposing to remove the fees from the Municipal Code and instead, set those fees by Resolution annually. Setting fees by resolution rather than ordinance allows for more flexibility and efficiency. Resolutions are typically easier to amend or revoke compared to ordinances which allow for a quick response to changing circumstances or economic conditions. Resolutions can be adopted faster than an ordinance because there are no publication requirements. That being said, the Resolution will be advertised on social media each year when it is completed and posted on our website throughout the year. Resolutions can also be adjusted temporarily when an emergency or economic challenge arises without the need for a more permanent change in local laws. Finally, utilizing a resolution will allow staff and the Governing Body to experiment with different fee models or structures by allowing a quicker response when something isn't working as expected.

Attachments:

1. Fee Schedule Ordinance

Policy Issue:

The City Commission must consider whether it is best to set fees by Ordinance or Resolution.

Fiscal Impact:

There is no direct fiscal impact.

Trade-offs:

While setting fees by resolution is more efficient and flexible, it can also be seen by the public as being less transparent and permanent.

Staff Recommendation:

Approve the ordinance as provided, removing fees from the Municipal Code and setting a fee schedule by Resolution.

Commission Action:

The Commission has the following options:

1. Approve the ordinance and allow staff to provide a resolution setting fees for service, etc.
2. Request changes to the ordinance, such as setting certain fees by ordinance and allowing others to be set by resolution.
3. Deny the request and continue to utilize the municipal code to set fees.

On March __, 2024, the City of El Dorado, Kansas adopted Ordinance No. G-____, an Ordinance Amending the City of El Dorado, Kansas Municipal Code relating to the Fees, with certain omissions, changes, and additions; prescribing additional regulations; providing certain penalties and repealing prior ordinances. ORDINANCE NO. XXXX

AN ORDINANCE OF THE CITY OF EL DORADO MUNICIPAL CODE PERTAINING TO THE DETERMINATION OF LICENSE FEES, PERMIT FEES, AND OTHER USER-RELATED FEES OR CHARGES ESTABLISHED BY ORDINANCES OF THE CITY OF EL DORADO, KANSAS, AND AMENDING EXISTING CITY CODE SECTIONS

BE IT ORDAINED, BY THE GOVERNING BODY OF THE CITY OF EL DORADO, KANSAS:

SECTION 1. Section 1.15 of the Municipal Code of the City of El Dorado, Kansas is hereby established to read as follows:

1.15.010 License fees, permit fees, and other related fees.

- a) The city commission shall determine, by resolution, all license fees, permit fees, and other user-related charges established by the ordinances of the city. All fees and charges shall be in such amounts as will adequately reimburse the city for the services rendered by it in connection therewith.
- b) The city manager shall annually review all license fees, permit fees, and other user-related fees or charges to ensure that the fees charged adequately reimburse the city for the services rendered by it. To assure an equitable adjustment, the city manager is authorized and directed to increase or decrease such license fees, permit fees, and other user-related fees or charges in approximately the same proportion as any increase or decrease in the general fund for the ensuing year.

SECTION 2. Section 1.16 of the Municipal Code of the City of El Dorado, Kansas is hereby amended to read as follows:

1.16.010 Scope of application.

Any person convicted of doing any of the acts or things prohibited, made unlawful or misdemeanor, or the failing to do any of the things commanded to be done, as specified and set forth in this code, shall be deemed guilty of a violation of this code and punished in accordance with Section 1.15.010. Each day any violation of this code continues shall constitute a separate offense.

SECTION 3. Section 1.16.020 of the Municipal Code of the City of El Dorado, Kansas is hereby amended as follows:

1.16.020 General Penalty

Whenever any offense is declared by any provision of this code, absent a specific or unique punishment prescribed, the offender shall be punished in accordance with this section.

- A. A fine in accordance with section 1.15.010.
- B. Imprisonment in jail for not more than one hundred seventy-nine (179) days;
or
- C. Both such fine and imprisonment not to exceed subsections (A) and (B) of this section.

SECTION 4. Section 2.32.100 of the Municipal Code of the City of El Dorado, Kansas shall hereby be amended as follows:

Section 2.32.100 - Costs

Court costs shall be charged in accordance with Section 1.15.010.

SECTION 5. Section 2.44.100 of the Municipal Code of the City of El Dorado, Kansas shall be amended as follows:

2.44.100 – Fee Policies.

- F. A fee shall be charged in accordance with Section 1.15.010. The record custodian may exercise his or her discretion to reduce or waive any inspection or copying fees when such is in the public interest.

SECTION 6. Section 3.04.090 of the Municipal Code of the City of El Dorado, Kansas shall be amended as follows:

3.04.090 – Petty cash fund – Amount.

Such petty cash fund shall not exceed the sum set by Section 1.15.010 and shall be deposited in the designated city depository bank and paid out on order of the city clerk by checks which shall state clearly the purpose for which issued.

SECTION 7. Section 3.08.130 of the Municipal Code of the City of El Dorado, Kansas shall be amended as follows:

3.08.130--Violation – Penalty

Any person, firm or corporation violating any of the provisions of this chapter shall, upon conviction thereof, be fined in any sum not exceeding the amount set

forth in accordance with Section 1.15.010. A separate offense shall be deemed committed upon each and every day or on which a violation occurs or continues.

SECTION 8. Section 4.08.080 of the Municipal Code of the City of El Dorado, Kansas shall be amended as follows:

4.08.080—License—Fees.

- A. License fees for the retail of draught, bottled and canned cereal malt beverages shall be in accordance with Section 1.15.010.
- B. The full amount of the license shall be paid regardless of the year the application is made. Said license shall be issued for the calendar year. No rebate or return of any portion of the license fee shall be made in case the license is revoked for any cause provided for under this title.

SECTION 9. Section 4.08.120 of the Municipal Code of the City of El Dorado, Kansas shall be amended as follows:

4.08.120 – Change of Location.

If a licensee desires to change the location of his or her place of business, he or she shall make an application to the governing body showing the same information relating to the proposed location as in the case of an original application. Such application shall be accompanied by a fee in accordance with Section 1.15.010. If the application is in proper form and the location is not in a prohibited zone and all other requirements relating to such place of business are met, a new license shall be issued for the new location for the balance of the year for which a current license is held by the licensee.

SECTION 10. Section 4.16.020 Subsection (A) of the Municipal Code of the City of El Dorado, Kansas shall be amended as follows:
